

[Selected Records on Systematic Alien Verification for Entitlements \(SAVE\) Program](#)

FOIA Number: 2012-3228-F

Scope and Content Note:

The materials in FOIA 2012-3228-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. The Staff and Office Files relate to the Systematic Alien Verification for Entitlements (SAVE) program, which was mandated by the Immigration Reform and Control Act of 1986. It used an Immigration and Naturalization Service (INS) system/database referred to as the Alien Status Verification Index (ASVI). The specific request was for records on SAVE being used for voter registration purposes or records evaluating the system's reliability. A file compiled by Betsy Anderson, Associate Director for Legal Policy in the Office of Policy Development, was identified as responsive to the above request. It consists of a memorandum of ASVI system usage statistics; a book excerpt of Legislative History regarding the Immigration Reform and Control Act and dealing with the SAVE program; and a U.S. General Accounting Office Report on "Immigration Reform: Alien Verification System Data Base Problems and Corrective Actions".

Processed by: Staff Archivists, September 2012. Previously restricted materials are added as they are released.
