FOIA Number: 2009-1442-F

Scope and Content Note:

The materials in FOIA 2009-1442-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. Material responsive to this FOIA is contained in the files of the National Security Council (NSC). Although these files are listed, it should be noted that portions of these documents are security classified and have been closed under the restrictions of the Presidential Records Act and the Freedom of Information Act. These records will be added if and when they are released. 2009-1442-F 2 The George Bush Presidential Staff and Office Files, which are maintained by individual staff members and offices, contain a memo, and a copy of a U.S. News & World Report magazine article. The memo, from Robert Gates, was sent to David Miller and designated him as a key member of a presidential emergency operations staff. Gates outlined Miller's duties for the assignment.

Processed by: Staff Archivists, September 2010. Previously restricted materials are added as they are released.
