

## [Electronic Records](#)

**NAID:** 73981777

**Collection:** GB-E-RECORDS

**Collection Date:** January 1989 - January 1993

**Scope and Content Note:**

The Electronic Records at the George H. W. Bush Presidential Library consists of two data sets of information.

PROFSDOC (Presidential Records Official Filing System) is a system of a mixed data set of Bush and Reagan unclassified email. There is no reliable way to keyword search these records or search by date.

PERL (Presidential Electronic Records Library) is an unclassified system which serve as a repository of archival electronic data sets from the George H. W. Bush Administration. PERL is used to ingest and provide internal access to the Presidential electronic records of George H. W. Bush. It consists of BVAX, CTAB, Diary, Gifts, Photo, CSW, and WHTC entries.

**Digitized Status:** Not Yet Available Online

## **Presidential Electronic Records Library (PERL)**
